Service

100% on-time collection service success

Diversion

Landfill diversion rate of 100% for all materials generated.

Optimisation

Bespoke awareness campaign was created to raise awareness of recycling opportunities.

The Testimonial

“We have been working consistently with Sharp Group for over 10 years. As we have grown we have relied heavily on the waste services Sharp offers.

We are now a £400m turnover main contractor and a leading specialist in the Industrial, Logistics, Retail Park and related sectors.

Our waste requirements vary from skips to ro-ro with different waste types. We count on Sharp as they are always on our sites when they say and prioritise safety. Sharp conduct regular site visits to ensure everything is running as effective and efficiently as it can.

Any new projects we have in Sharp’s area we know we are going to be looked after. This is a great asset to have as in some other locations Sharp don’t cover we can encounter issues.”

Senior Quantity Surveyor — Construction
